User Story

Map list :

1. A logged in user can add some new stations or places that are not currently in the map or save their favorite places. So we say :
   - **Could have :** “As a user, I want to add some new stations or places to the map, so that I can contribute to the map’s development or increase my scores or to get a new badge.”
   - “ As a user, I want to save my favorite places, so that I can find them easier and faster later in my saved places.”
   - **Acceptance criteria :**
     - After clicking on the save icon, the place will be saved in the database and the user will be able to see it in their saved places.
     - Each time the user completes some tasks, the can get a badge or increase their scores; like adding a new place.
     - After the user can chose “adding a new place”, they’ll face a series of questions they have to answer about that place.

Routing :

1. Any user can access the routing system. By clicking on the routing icon, they can enter the start and end points to see the route.
2. User has the options of کمترین زمان and کمترین هزینه. The economical cost option gives you the route from start to end with the lowest cost. The other option, gives the user the fastest way to get to the destination. SO we say :
   - “ As a user, I want to be able to find the fastest route with no limitation on the logging or membership situation, so that I can find the route faster and easier. ”
   - “ As a user, I want to find the economical way to get somewhere, so that I wouldn’t have to spend a lot of money on commuting. “
   - “ As a user, I wanna find public transportation and the walking distance to the destination, so that I could use any of them.”
   - “ As a user, I want to save my favorite place after finding it with routing, so that I can find it easier later. “
   - “ As a user, I want to be able to see the route of my saved place right after clicking on the saved place, so that I can immediately get there or use the information it gives me.”
   - “ As a user, I want to be able to interchange the start and end point easily, so that if I got them wrong I wouldn’t have to write them again.”
   - “ As a user, I want to find my current location easily by a simple click, so that I don’t have to find it on my own.”

- **Acceptance criteria :**
  - The user will see all the possible routes from the start to the end points after routing.
  - The user can see information about a station or a route if they click on it.
  - The user can easily interchange the start and end point by just clicking on the change button. After clicking the button, the routes will be interchanged.
  - When the user clicks on the “choose my current location” option, their current location will be detected and show by the web.

Register / login :

1. The user clicks on the ورود circle in the sidebar menu. They have two options they can choose : register and login.
   - “ As a user, I want to register or log in my account, so that I can use the map’s features like finding a person or seeing my groups. “
   - **Acceptance criteria :**
     - If they’re already registered, they’ll get an error trying to register again. Same for login.
     - The user will be able to use the features after signing in/up.

Profile :

1. They can see their profile in which they’re shown their scores, cooperation in the map,their medals, and the comments they had on some places.
2. By clicking on the three dots icons, they’ll have two options : log out , change profile info
3. If chose “change profile info”, they can now change their info and save it.
   - “ As a user, I want to go to my profile after I logged in, so that I can see the images I uploaded of different places, the comments I had on some places, my contribution to the map, the badges I earned, see my score, to be able to share my profile link, change my profile info, or to log out. “
   - **Acceptance criteria :** if the user adds the same info, nothing gets saved.
   - **Must-haves :** the user must register or log in to be able to see their profile info.

Hamsafar :

- “ As a logged-in user I want to get into Hamsafar**,** find people near my location right now, send a request to a person**,** so that I could commute with them and share the traveling costs.”
- “ As a logged-in user, I want to schedule a time to travel with somebody in a close future, so that I could commute with them and share the traveling costs.”

- “As a user, I want to be able to see the profile of a person whom I’m traveling with. So that I can make sure they’re the right people for me.”
- “As a user, I want to be able to message the person whom I sent a request to, so that we could agree on some things.”
- “ As a user, I want to be able to cancel my request or the ones I accepted or left a group, so that I can choose other options in my mind.”
- **Acceptance criteria :**
  - The user can turn the temporary group into a permanent group by clicking on the add icon.
  - The user will get added to the permanent group of the people who he/she requested to, if they made it permanent .
  - If there’s a group of people , new requests for other people will be shown for all members in the shared group and through a notification.

Groups :

- “ As a user, I want to check the groups I’m in, so that I can send or check messages, join or leave a group.”
- “As a user, I want to search a group’s name, so that I can find it faster.”
- “ As a user, I want to mute / unmute a group, so that I don’t have to receive their notifications.”
- “ As a user, I want to add a new user to my group, so that we all could interact and use the group.”
- “ As a user, I want to add some polls or other options of the group.”
- “ As a user, I want to share group’s link to others, so that others can join too.”
- “As a user who’s a group’s owner, I want to be able to remove someone from the group.”
- “ As a user, I want to change group’s name, so that it could have our favorite name.”
- **Acceptance criteria :**
  - By clicking on the group’s name, the user could share group’s link, see the members, turn on an off notification.
  - The first person in the temporary group who clicks on the add button, becomes the admin of the permanent group.
  - Only the owner of a group can remove other members.
  - Everybody can change group’s name.
  - The user can add a poll by clicking on the paper clip in the text input area.
  - Any user can change group’s name by clicking on the group’s name.
